Work Experience

Visual Designer

The Mosaic Company — March 2024 - Present

- Drove continuous UX/UI enhancements for Mosaico.com through iterative CMS-based development, leveraging user research, usability testing, and A/B testing — resulting in a 20% reduction in bounce rate, a 15% increase in average session duration, and a 12% boost in conversion rates.
- Designed and developed bold, user-centered digital experiences across corporate web properties, social media, and digital advertising campaigns, managing content publishing workflows within the CMS and contributing to a 30% increase in brand engagement and a 25% growth in social media reach.
- Architected and maintained Mosaic's design system, establishing a unified visual language and reusable component library that ensured brand consistency across web, digital advertising, internal communications, and social media channels — accelerating the production of visual assets and reducing design-to-development handoff time.
- Collaborated cross-functionally with IT and Communications teams to manage CMS integrations, maintain site performance and security, and drive front-end innovation across digital platforms.

Visual Designer

Accenture — October 2021 – March 2024

- Developed and enhanced UI elements and visual assets to effectively communicate key messages for over 80 deals totaling \$3 billion across the Energy, Healthcare, Telecom, Retail, and Investment Banking sectors, with a focus on sales optimization.
- Led Visual Design efforts by creating a design system for the Ohio Oaks Managed RFP response which brought a \$300M revenue for Accenture, boosting Q1 FY24 sales.
- Collaborated seamlessly with over 60 diverse stakeholders and cross-functional teams to promptly address their requirements, all while adhering to tight project deadlines and managing fast-paced workload employing Project management skills.
- Crafted accessible and responsive user interface components—including wireframes and prototypes—integrating principles of branding, typography, color theory, layout, and imagery to meet user needs and elevate the overall experience.
